GENERAL SPECIFICATIONS	
CONCEPT	DESCRIPTION
Operation temperature	0 .. +40 °C
Storage temperature	-20 .. +55 °C
Operation humidity	5 .. 95% RH
Storage humidity	5 .. 95% RH
Degree of protection	IP20, clean environment
Installation	Independent device to be installed in back boxes
Weight	35.2 g
Housing material	PC+ABS FR V0 halogen free

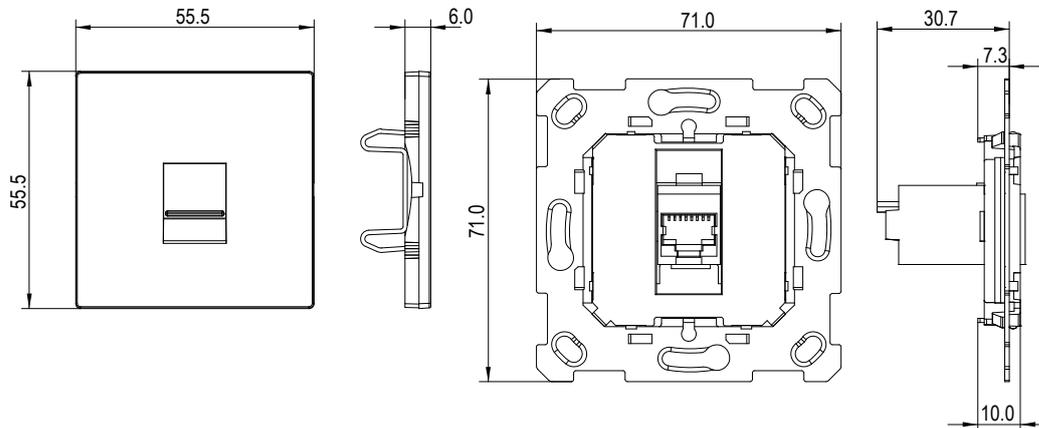

INSTALLATION INSTRUCTIONS

1. Prepare the cable and crimp each wire according to the colours shown on the outlet. EIA/TIA-568-A or B connections are possible. Close the flip top.
2. Insert the RJ45 keystone into the support piece by first introducing the rigid clips on the lower part where the two grooves are located (see detail image), and then tilting up the keystone to insert the flexible clip on the upper part. Fix the fixing plate to a square or round flush back box by using the screws from the box (fixing clamps can optionally be used). Check that the plate is correctly levelled.
3. Fix the decorative frame and the cover into their final position.

To remove it, proceed the reverse way.
